Reminders

- ▶ Jan 2nd - USF Offices Reopen
- ▶ Jan 23rd - Q4 OAS Town Hall
- ▶ Jan 29th - "After the Fire" Event
See attached flyer

Publix is now Open!

USF Tampa is now home to the first Publix on a college campus. USF System President Judy Genshaft, Tampa Mayor Bob Buckhorn, and a crowd anticipating fresh fried chicken and Pub Subs gathered outside of the new location to witness the long-awaited grand opening on the chilly morning of December 6th. After the opening ceremony and ribbon-cutting, attendees, including Rocky D. Bull, toured the new publix and received complimentary reusable USF grocery bags.

Along with the already pleasurable shopping experience Publix stores always provide, the on-campus location provides another level of convenience to staff and students. President Genshaft and her team work to provide students

with an environment where they have all the resources to live and learn without having to worry about transportation. With the addition of Publix, students living at USF have more on-campus job opportunities and an easily accessible grocery store to shop at. This store also gives faculty, staff, and commuting students a convenient shopping location that will be on their route to and from USF.

Additionally, this store is fully stocked, not only with your typical groceries, but also with USF-related products. On the

Even at 7 A.M. the USF community lined up to get the first "Pub Subs" from the new Publix.

corner of Fletcher Ave. and USF Palm Dr., the USF Publix officially has their doors open.

ASBC Volunteering

In November, members of the Administrative Services Business Center (ASBC) participated in a volunteer event at the Tampa Bay Junior Achievement Center, whose main goal is to motivate students and provide the necessary resources and information for them to have a chance at a successful future. As technology continues to grow, the characteristics and skills employers look for when hiring are expanding as well. The Junior Achievement Center works to inform, prepare and excite students for the new opportunities and changes they will encounter in their future workplace.

The event the ASBC participated in was called Junior Achievement (JA) BizTown

Members of the ASBC posing for a photo at Junior Achievement BizTown.

and taught students financial skills they would need in the future through an interactive model.

JA Biz Town was set up as an actual town filled with a variety of businesses, all of which had local sponsors and were set up to look like their real buildings, including the logo. Students were assigned jobs ranging from Mayor, to TV reporter, to sales clerk. This town offered students the opportunity to practice financial tasks, such as depositing paychecks, paying bills, and sending invoices as well as other responsibilities associated with their assigned professions. The volunteers from the ASBC had a rewarding experience giving back to the youth of the community and will be returning to the center in January for another event.

OAS on YouTube

With increasing amounts of video content being produced for Administrative Services, a YouTube Channel was created to be a central location for employees and audiences to view our video content after it is released. This includes videos released at OAS Townhalls, certain motion graphics, and videos created to highlight Administrative Services accomplishments. Subscribe to our channel by searching for [USF Administrative Services](#) on YouTube!

The event that could save your life...

AFTER THE FIRE

A true story of heroes and cowards.

In January of 2000 a dormitory fire at Seton Hall University took the lives of three freshmen and injured 58 others. Shawn Simons and Alvaro Llanos, two roommates severely burned, share their story. The pair's inspirational and motivational college tour presentation includes a viewing of their powerful documentary movie followed by discussion time with Shawn and Alvaro.

FREE movie screening and discussion.
