

Dear graduates,

All of the hours, all of the late nights and early mornings, all of the sacrifices you made over the past few years have led you here. To this day, this stage, this moment. This ceremony represents the culmination of each of the individual decisions you made – day in and day out – to keep reaching for your goals.

But today is more than a closing of a chapter. Today represents continual growth in your chosen craft. Today honors the life-changing insights you've gained by engaging in dialogue with others of differing viewpoints. Today knows that you will be empowered by your confidence, and today knows you are only limited by your wildest dreams. It is because you are here, and because again and again you made the choice to reach higher, and because you know that today is just the beginning.

May today's celebration be not of what's behind you, but of the incredible potential ahead. May today you toast to the challenges you'll face head-on; To the problems you will solve; To the opportunities you'll have to make life better, to change the world.

May you continue to embrace every challenge that comes your way. May your growth never cease. May your journey take you all over the world, and may you always find a way back to USF.

Congratulations, and GO BULLS!

USF SYSTEM SUMMER COMMENCEMENT | SATURDAY, AUGUST 5, 2017

UNIVERSITY OF SOUTH FLORIDA SYSTEM

Founded in 1956, the University of South Florida is a multicampus system comprised of three separately accredited institutions, USF, USF St. Petersburg, and USF Sarasota-Manatee. The USF System has an annual budget of \$1.8 billion, an annual economic impact of \$4.4 billion and offers 232 degree programs at the undergraduate, graduate, specialist and doctoral levels, including the doctor of medicine. Serving nearly 48,000 students, USF is large and diverse with students from every state and nearly 160 different countries. More than 30 percent are African American, Hispanic, Asian American, Native American and other races and ethnicities.

USF is the doctoral granting, research intensive member of the USF System and it includes the main campus in Tampa, its College of Marine Science in St. Petersburg and USF Health. USF is ranked 25th in the nation for research expenditures, among public U.S. universities and is also one of only 25 public research universities nationwide with very high research activity that is designated as community engaged by the Carnegie Foundation for the Advancement of Teaching.

USF St. Petersburg offers master's level and undergraduate programs in the arts and sciences, business and education within a student-centered environment. The first regional institution in the USF System with independent accreditation, USFSP distinguishes itself by its urban waterfront location

in downtown St. Petersburg and its focus on undergraduate research, civic engagement and small classes. Most faculty members hold the highest degree in their field and teach courses from the freshman to graduate level. USFSP retains its separate identity and mission while contributing to and benefiting from the associations, cooperation, and shared resources of a premier national research university.

USF Sarasota-Manatee is the second regional institution in the USF System to earn an independent accreditation. USFSM strives to be a hometown, comprehensive university with ever-increasing national and global impact. The USF Sarasota-Manatee campus is located on U.S. 41 near Sarasota Bay, the Powell Crosley Mansion, the John & Mable Ringling Museum of Art, and the Sarasota-Bradenton Airport. USFSM offers over forty bachelor's degree, master's degree and certificate programs in four colleges: Arts & Sciences, Business, Education, and Hospitality and Technology Leadership. USFSM provides students with individualized attention from nationally and internationally recognized faculty while capitalizing on the resources of a major public research university.

The USF System member institutions span the Tampa Bay region; however, true to their differentiated missions, the member institutions collectively provide educational services across the state of Florida and beyond.

The University of South Florida is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award degrees at the baccalaureate, master's, specialist and doctoral levels, including the Doctor of Medicine. Events, activities, programs and facilities of the University of South Florida are available to all without regard to race, color, marital status, gender, sexual orientation, religion, national origin, disability, age, Vietnam or disabled veteran status as provided by law and in accordance with the University's respect for personal dignity.

THE SYMBOLS OF LEARNING

Modern academic regalia evolved from the kinds of apparel worn by monks and students in the 11th and 12th centuries to keep warm in the medieval castles and halls in which they studied. Academic life as we know it today began in the Middle Ages — first in the church, then in the guilds. The teaching guild was the Guild of the Master of Arts, and the Bachelor was the apprentice of the Master. Their dress was the outward sign of stature and responsibility. Academic regalia was thus a visible manifestation — in color, pattern and design — that unified those of common discipline and like purpose. In later centuries, to preserve the regalia's dignity and meaning, universities set rules of academic dress. American universities agreed on a definite system in 1895, establishing a code of approved attire. In 1932, the American Council on Education revised this code, which, for the most part, governs the style of academic dress today. The principal features of academic dress are three: the gown, the cap and the hood.

THE GOWN — The gown has become symbolic of the democracy of scholarship, for it completely covers any dress of rank or social standing. The sleeves of the gown indicate the level of the degree held by the wearer. A long, pointed sleeve indicates the bachelor's degree. The master's gown has an oblong sleeve cut in an arc, with a slit at either the upper arm or wrist. The USF doctor's gown has bell-shaped sleeves and three black bars on the sleeve. The doctoral robe also has the seal of the university on the velvet facing.

THE CAP — The freed slave in ancient Rome won the privilege of wearing a cap, and so the academic cap is a sign of the freedom of scholarship and the responsibility and dignity with which scholarship endows the wearer. Old poetry records the cap of scholarship as a square symbolizing the book, although other authorities claim that it is a mortar board, the symbol of the masons, a privileged guild. The color of the tassel on the cap denotes the discipline. The tassels on the caps (mortar boards) worn by the faculty may be black or a color indicating the degree. Those who hold a doctoral degree may wear a gold tassel. It is traditional for degree candidates to wear their tassels on the right and for those holding degrees to wear them on the left. Graduates transfer their tassels to the left after conferring of the degrees by the President.

THE MACE — The USF Mace, used during all Commencement ceremonies, is a ceremonial staff similar to those used by many institutions of higher learning to show the right of academic institutions to grant degrees to graduates. The USF mace is used during all Commencement ceremonies and is carried by the President of the Faculty Senate. Our mace includes a gold pine cone at its top to represent growth and continuity. Eight silver semicircles, which support the pine cone, stand for the eight colleges in existence at USF when the mace was commissioned in 1998. When not in use, today's mace is displayed in the foyer of the President's office. The original university mace is on display in the Alumni Center.

THE MEDALLION — The medallions worn by candidates for the bachelor's degree identify those graduating with honors. The black hood of a bachelor's candidate indicates a student who has earned the Honors College degree.

THE SASH — The golden-colored sash is made available to students who are members of university honors societies. The

sash is embroidered with the university seal and the student's honors society. International students may choose to wear a special sash honoring their home country. The colors of their sash reflect the colors of their native flags.

THE HOOD — The hoods are lined with the official colors of the institution conferring the degree. They are edged and bound with velvet of the color appropriate for the degree. At USF, the lining of the hood is green with a gold chevron, representing the university's colors.

THE COLORS — In regalia, academic disciplines are noted by color. These colors can be found on undergraduate and masters tassels and on master and doctorate hoods on the velvet edging.

ROSEANNE GARCIA BOWERS

HONORARY DOCTOR OF EDUCATION

The University of South Florida today presents an Honorary Doctor of Education to a recognized Tampa Bay community leader of distinction with more than 40 years of experience in the field of education, and who has been a part of the USF College of Education nearly since its inception.

RoseAnne Garcia Bowers, who holds a BA in Business Education, MA in Business Technology Education, and Education Specialist degree in Vocational Education Administration – all from USF – has served in Hillsborough County as student, teacher, administrator, and assistant superintendent. During her years as an educator, Bowers taught business education at high schools in Hillsborough County and in Fairfax County, Virginia, while she also taught at USF. She was a school administrator for 23 years, and served as mentor to student teachers and new educational leaders. Bowers created the first “Leadership Class” for high school students in Hillsborough County and throughout Florida; and worked with the Chamber of Commerce to recruit area businesses to Hillsborough County to provide jobs and revenue. She served as a member on both the USF College of Education Development Board and USF President’s Council and Legacy Society.

Though retired, she continues to serve on the COEDU Deans Circle Board; is a member of Brewster Adult Disabled Advisory Committee; and is an active community volunteer. Bowers, with her husband Lou, not only established a named scholarship in the College of Education but also contributed to other various scholarships targeting student success. Her enthusiasm for students and belief in the university is absolute.

Bowers is the recipient of numerous awards, including induction into the Florida Technical Career Education Hall of Fame, the Technical Career Education Association’s highest honor. Other honors include the Pan American University Woman of the Year, “Rising to the Top” Award from the American Association of University Women, Hillsborough Vocational Association’s Outstanding Vocational Educator Award, and Brandon High School’s Most Outstanding Teacher Award. In 2003, the Bowers/Whitley Career Center High School was named in her honor by the Hillsborough County School Board.

On the basis of her outstanding contributions to her profession, recognition as a respected leader throughout the state and nation, and longstanding commitment to the USF College of Education faculty, students, and graduates, the University of South Florida is privileged to recognize RoseAnne Garcia Bowers with an Honorary Doctor of Education.

DR. JESÚS FERRO BAYONA

PRESIDENT'S GLOBAL LEADERSHIP AWARD

Dr. Jesús Ferro Bayona is a national and international opinion leader in higher education. He has been Rector of Universidad del Norte for 37 years and, under his leadership, Uninorte has become one of the top ten universities in Colombia. Dr. Ferro represents Uninorte in this group of top university leadership as advisor to Colombia's President Juan Manuel Santos and the Education Ministry in matters of higher education.

Ferro is recognized as a national leader known for the quality of his faculty and his promotion of academic excellence at both the graduate and undergraduate levels. He has guided Universidad del Norte to achieve great social impact in the Colombian Caribbean through a comprehensive scholarship program and extensive research outreach. Jesús Ferro's strategic vision for the internationalization of higher education has led Uninorte's commitment to a global education.

Ferro has been a member of several boards of directors, including Educational Lending Bank, Icetex, Advisory commission for the development of the 1980 University Reform, President of the Colombian Association of Universities, Interuniversity Center for Development, the Interamerican Council for Economic and Social Development, the National Competitiveness Council, the National Commission for the Development of Higher Education, and the National Council for Science and Technology, and many others.

Ferro's dedicated service as Rector of Universidad del Norte has led him to receive numerous distinctions and awards, which include the Simón Bolívar Medal of the National Ministry of Education of Colombia and the National Order of Merit of the Ministry of Foreign Relations of Colombia. The French Republic awarded him with the Medal of the Order of Academic Palms. He was selected as a corresponding member of the Colombian Academy of Language, for his intellectual career as a scholar and his work in the Spanish language. Ferro has also published various impactful books on philosophy, culture and education.

Ferro studied letters and classical languages as well as philosophy at Pontificia Universidad Javeriana in Bogotá, Colombia during the 1960s. He earned his Master's in philosophy from Université de Lyon II. He holds a Master of theology from the Sèvres Institute in Paris. Ferro also pursued doctoral studies at the École des hautes études in social sciences. The University of South Florida is honored to present the President's Global Leadership Award to Dr. Jesús Ferro Bayona.

APRIL MONTEITH

USF ALUMNI ASSOCIATION CHAIR

Congratulations! Today is your first day as a USF alumnus, a distinction you have earned and will proudly hold for the rest of your life. It is a special day for you and the friends and family who supported you.

Since the first graduating class in 1963, USF alumni have brought honor and distinction to the university in many areas, including medicine, business, law, the arts, public service, technology, engineering and education. With each passing year — and graduating class — the university's stature grows as its alumni are recognized across the state and nation, and around the world.

From this day forward, you will carry on that tradition. Wherever your future takes you, you'll carry with you the distinguished reputation of a world-class university. I personally invite and encourage you to stay connected to your Alma Mater through the USF Alumni Association. Your membership connects you with your fellow Bulls and creates meaningful ways for all of us to: promote and protect USF, share your USF pride, stay connected and make an impact, and help USF succeed.

Take full advantage of your first year complimentary USF Alumni Association membership by getting involved in your local chapter and your college alumni society.

We are incredibly proud of the accomplishments you and your family celebrate today. With your degree and educational experiences to reflect on, you are now truly Unstoppable!

In Bull Pride,

APRIL MONTEITH, '01, MBA '03
CHAIR, USF ALUMNI ASSOCIATION

KING O'NEAL SCHOLARS

A tradition since 1988, the King O'Neal Scholars are recognized each semester by the Alumni Association in honor of charter graduates Lucas King and Evelyn O'Neal. Graduating seniors with the highest overall grade point average, 4.0, are identified as King O'Neal Scholars candidates during commencement ceremonies. The recipients of the King O'Neal also receive a certificate of accomplishment and a gold medallion of the university seal.

GARRETT BOWLEG

OUTSTANDING GRADUATE SUMMER 2017

The Outstanding Graduate Award, given each semester by the USF Alumni Association, recognizes a graduating senior who embodies leadership, school spirit, community service, character and scholarship. This semester's award goes to Garrett Bowleg, who graduates today from the College of Engineering with a Bachelor of Science in Industrial Engineering.

As an international student from the Bahamas, Bowleg came to the University of South Florida to pursue her dream of becoming a female role model in the STEM field for young girls from her home country. Through her studies and work at USF, she has proved to be a leader who engages in the community, values wisdom, and appreciates diversity.

While at USF, Bowleg gained membership into numerous student organizations including the Society of Women Engineers, Institute of Industrial and Systems Engineers, USF Ambassadors and Lead Fellows. During her time in the USF Ambassadors program, Bowleg served as the Director of Organization Advancement and bolstered student awareness of the Ambassadors and increased applications for the program by 67%. As a three-year member of Lead Fellows for the Center for Leadership and Civic Engagement, Bowleg served as both the Engagement and Programming Coordinator. As coordinator, she hosted peer-to-peer consultations to improve student involvement on campus, and also provided students with help on their internship applications.

Bowleg worked as an undergraduate researcher in the College of Engineering under the mentorship of Dr. Kingsley Reeves and helped with the development of his "open access" textbook for future engineers. Bowleg attended two national conferences and secured an internship at both the United Technologies Corporation and Lockheed Martin.

In addition to serving on campus, Bowleg participated in several community service projects including volunteering for the American Cancer Society Hope Lodge and the Invent It-Built It organization that inspires young girls to pursue STEM careers. Bowleg has received many awards at USF including the Values Award for Empowerment and the "Learn. Serve. Lead" award.

After graduation, Bowleg has been offered a full time position at Emerson as part of their Engineers in Leadership Program, which will provide her the opportunity to work abroad in Romania.

GLOBAL CITIZENS AWARD

The Global Citizen Award recognizes undergraduate students who have had significant global engagement experiences through study abroad, research, community service, internships, and/or coursework..

DOCTOR OF PHILOSOPHY

Hady Ahmady Phoulady, Computer Science and Engineering
B.S., Shahid Beheshti University
M.S., Uppsala University
Dissertation: *Adaptive Region-Based Approaches for Cellular Segmentation of Bright-Field Microscopy Images*
Co-Major Professors: Dmitry Goldgof, Ph.D. and Lawrence Hall, Ph.D.

Aman Chawla, Electrical Engineering
B.S., Cornell University
M.S., Massachusetts Institute of Technology
Dissertation: *On Axon-axon Interaction via Currents and Fields*
Major Professor: Salvatore D. Morgera, Ph.D.

Christopher Connors, Chemical Engineering
B.S.C.H., University of Florida
Dissertation: *Bisphosphonate Functionalized Gold Nanoparticles for the Study and Treatment of Osteoporotic Disease*
Co-Major Professors: Vinay K. Gupta, Ph.D. and Venkat Bhethanabotla, Ph.D.

Rajmadhan Ekambaram, Computer Science & Engineering
B.S.E., PSG College of Technology, India
M.S.E.E., National University of Singapore
Dissertation: *Active Cleaning of Label Noise Using Support Vector Machines*
Co-Major Professors: Lawrence Hall, Ph.D. and Dmitry Goldgof, Ph.D.

Mona Fathollahi Ghezlehieh, Computer Science & Engineering
B.S.E.E., Sharif University of Technology
MCS, University of South Florida
Dissertation: *Estimation of Human Poses Categories and Physical Object Properties from Motion Trajectories*
Co-Major Professors: Rangachar Kasturi, Ph.D. and Sudeep Sarkar, Ph.D.

Srikanth Gunti, Mechanical Engineering
B.S.M.E., Osmania University, India
Dissertation: *Enhanced Visible Light Photocatalytic Remediation of Organics in Water Using Zinc Oxide and Titanium Oxide Nanostructures*
Co-Major Professors: Ashok Kumar, Ph.D. and Manoj K. Ram, Ph.D.

Ashley Knight, Biomedical Engineering
B.S., North Carolina State University
M.S.B.E., University of South Florida
Dissertation: *The Development of a Platform Interface With the Use of Virtual Reality to Enhance Upper-Extremity Prosthetic Training and Rehabilitation*
Co-Major Professors: Rajiv Dubey, Ph.D. and Stephanie Carey, Ph.D.

Eunyoung Lee, Civil Engineering
B.S., Myongji University
M.S., Myongji University
Dissertation: *Carbon and Nutrient Balances in Microalgal Bioenergy System*
Major Professor: Qiong Zhang, Ph.D.

Martin Llofriu Alonso, Computer Science & Engineering
B.S.C.P., Universidad de la Republica, Uruguay
MCS, University of South Florida
Dissertation: *Multi-Scale Spatial Cognition Models and Bio-Inspired Robot Navigation*
Major Professor: Alfredo Weitzenfeld, Ph.D.

Nikhil Menon, Civil Engineering
B.S.C.E., National Institute of Technology, Calicut, India
M.S.C.E., University of South Florida
Dissertation: *Autonomous Vehicles: An Empirical Assessment of Consumers' Perceptions, Intended Adoption, and Impacts on Household Vehicle Ownership*
Co-Major Professors: Yu Zhang, Ph.D. and Abdul Pinjari, Ph.D.

Scott Padilla, Mechanical Engineering
B.S.M.E., University of South Florida
Dissertation: *Novel Transducer Calibration and Simulation Verification of Polydimethylsiloxane (PDMS) Channels on Acoustic Microfluidic Device*
Major Professor: Rasim Guldikien, Ph.D.

Mohsen Parsafard, Civil Engineering
B.S.C.E., Iran University of Science and Technology
M.S.C.E., Sharif University of Technology
Dissertation: *Space-Time Transportation System Modelling: from Traveler's Characteristics to the Network Design Problem*
Major Professor: Xiaopeng Li, Ph.D.

Calvin Perumalla, Electrical Engineering
B.S.E.E., Malla Reddy Engineering College
M.S.E.E., University of South Florida
Dissertation: *Machine Learning and Adaptive Signal Processing Methods in Electrocardiography Applications*
Major Professor: Richard Gitlin, Ph.D.

Laura Rodriguez Gonzalez, Environmental Engineering
B.S.C.E., University of Puerto Rico, Mayaguez
MEVE, University of Puerto Rico, Mayaguez
Dissertation: *Advanced Treatment Technologies for the Mitigation of Non-point Sources of Nitrogen and Trace Organic Pollution*
Major Professor: Sarina J. Ergas, Ph.D.

Eduardo Rojas, Electrical Engineering
B.S.E.E., Universidad de Carabobo
M.S.E.E., University of South Florida
Dissertation: *High Performance Digitally Manufactured Microwave and Millimeter-Wave Circuits and Antennas*
Major Professor: Thomas M. Weller, Ph.D.

Walter Silva Sotillo, Industrial Engineering
B.S.I.E., Pontificia Universidad Catolica del Peru, Peru
M, Universite de Orleans, France
Dissertation: *Analysis of a Potential A(H7N9) Pandemic Outbreak in the U.S.*
Major Professor: Tapas Das, Ph.D.

Sathya Chandran Sundaramurthy, Computer Science & Engineering
B.S.C.S., Anna University
Dissertation: *An Anthropological Study of Security Operations Centers to Improve Operational Efficiency*
Major Professor: Xinming Ou, Ph.D.

Orhun Uzun, Electrical Engineering
B.S., Istanbul Technical University
M.S.E.E., University of South Florida
Dissertation: *Speed, Power Efficiency, and Noise Improvements for Switched Capacitor Voltage Converters*
Major Professor: Selcuk Kose, Ph.D.

Weize Yu, Electrical Engineering
B.S., University of Electronic Science and Technology of China
M.S., University of Chinese Academy of Sciences
Dissertation: *Exploiting On-Chip Voltage Regulators as a Countermeasure Against Power Analysis Attacks*
Major Professor: Selcuk Kose, Ph.D.

COLLEGE OF MARINE SCIENCE

Jacqueline Dixon, Dean

DOCTOR OF PHILOSOPHY

Claire Crowley, Marine Science
B.S., Eckerd College
M.S., University of South Florida
Dissertation: *Florida Fishery-Wide Reproductive Indices of Stone Crab, Menippe mercenaria, and Their Application to Stock Assessment and Management*
Major Professor: Kendra Daly, Ph.D.

Elizabeth Fahsbender, Marine Science
B.S., University of South Florida
Dissertation: *Viruses of Marine Animals: Discovery, Detection, and Characterization*
Major Professor: Mya Breitbart, Ph.D.

COLLEGE OF PUBLIC HEALTH

Donna Petersen, Dean

DOCTOR OF PHILOSOPHY

Pamela Birriel, Public Health
B.S., Florida State University
