Chemical Engineering Requirements for Progression to Upper Division

In addition to meeting continuation requirements, First Year Students must complete ECH 3023 Material and Energy Balances with a minimum grade of C (C- is insufficient) by no later than the end of the fifth semester (not counting summers). Upper-level transfer students must meet the same course and grade requirement by the end of the third semester (not counting summers). The semester count begins upon admission to USF. Students are encouraged to complete this course as soon as possible upon entry at the university.

Continuation and Graduation Requirements

Reference Catalog: https://catalog.usf.edu/preview_program.php?catoid=19&poid=8760

- Prerequisite courses must be completed with a grade of “C” or better (C- is insufficient) before the student is allowed to take the course. The passing grade for terminal courses, which are not prerequisite courses, is a D-.
- Each student must not accumulate more than a total of three (3) grade of D, F, or W, in any combination, for the collection of the required major specialization courses.
- Students must have and maintain a minimum 2.0 Semester GPA, 2.0 Math and Science GPA, 2.0 Engineering GPA, 2.0 Specialization GPA, 2.0 USF GPA, and 2.0 Overall GPA.
- **All math, science and engineering courses must be successfully completed in no more than two registered attempts. Grades of W, IF, U, and R are considered attempts.**
