

Curriculum Vita – Boris Galperin

1. PERSONAL

Work Address: College of Marine Science, MSL 138F, University of South Florida,
140 7th Avenue South, St. Petersburg, FL 33701

Telephone: (727) 553 1249 (office)

Fax: (727) 553-1189

Email: bgalperin@usf.edu

2. EDUCATION

1982 Ph.D., Technion - Israel Institute of Technology, Haifa, Israel
1975 M.A., Latvian State University, Riga, Latvia
1970 Special School in Physics and Mathematics in Kiev, Ukraine

3. ACADEMIC EXPERIENCE

1989-present Associate Professor of Physical Oceanography, University of South Florida
1987-1989 Research Staff Member, Program in Applied and Computational Mathematics,
Princeton University
1983-1987 Research Staff Member, Program in Atmospheric and Oceanic Sciences,
Princeton University

4. PROFESSIONAL EXPERIENCE

1976-1977 Engineer, Central Office of Mechanization and Automatics, Riga, Latvia
1975-1976 Engineer-Mathematician, State Office for Design and Development of Automated
Management Systems, Kiev, Ukraine

5. PROFESSIONAL SOCIETIES AND ASSOCIATIONS

The American Meteorological Society (AMS)
The American Physical Society (APS)
The American Astronomical Society (AAS)
American Geophysical Union (AGU)
European Geophysical Society (EGS)

6. AWARDS AND HONORARY CITATIONS

2002-2003 USF Outstanding Faculty Research Achievement Award
2008-2009 USF Outstanding Research Achievement Award
November 2002 A 2002 PRL paper highlighted in Physics Update, "How Jupiter Got Its Stripes," in
Physics Today
June 2004 AGU Press Release "Link Discovered between Earth's Ocean Currents and Jupiter's
Bands" highlights 2004 GRL paper
(http://www.agu.org/news/press/pr_archives/2004/pr10425.html)
October 2008 A 2008 PRL paper highlighted in the article "Focus: Big Waves from a Small Source"
by the American Physical Society under the category "Spotlighting exceptional
research in Physics" (<http://physics.aps.org/story/v22/st14>)

7. TEACHING AND RESEARCH INTERESTS

Geophysical fluid dynamics; hydrodynamic stability; turbulence theory; geophysical turbulence; planetary circulations; fluid dynamics; waves; atmospheric, marine and oceanic boundary layers

8. GRADUATE STUDENTS

Jessica Caggiano – was a PhD student in 2019 but changed Major Professor to Don Chambers

Esa-Matti Tastula – PhD; graduated in 2015; won the Sackett Prize for Innovative Research that recognizes demonstrated excellence in a completed research project

Jesse Hoemann – former PhD student who left our program. We have co-authored 5 reviewed papers.

9. STUDENT COMMITTEES**PhD**

Jessica Caggiano	current	
Anthony Perez	current	Civil Engineering, USF
Michael Kosempa	graduated in 2017	
Rachel Walker	graduated in 2015	Civil Engineering, USF
Nityanand Sinha	graduated in 2013	Civil Engineering, USF
Cigdem Akan	graduated in 2012	Civil Engineering, USF
Hari Vijayan Warrior	graduated in 2004	
Robert William Helber	graduated in 2003	
Mark Vincent	graduated in 2002	
Nancy Jeanne Schmidt	graduated in 2001	
David Carr Burwell	graduated in 2001	
Zaihua Ji	graduated in 1997	
Lin Qiao	graduated in 1996	

MS

Amanda Linville	graduated in 2007
Michelle Valenti	graduated in 1995
Zhen Li	graduated in 1993

10. COURSES TAUGHT

Directed research
 Dissertation
 Fluid Dynamics I
 Fluid Dynamics II
 Introduction to Turbulence and Boundary Layers
 Geophysical Fluid Dynamics
 Geophysical Turbulence
 Mathematical Tools
 Mathematics for Physicists
 Turbulence and Planetary Boundary Layers
 Spectral Methods in Turbulence
 Introduction to Physical Oceanography
 Numerical Modeling in Physical Oceanography

11. BOOKS AND MONOGRAPHS

1. *Zonal Jets: Phenomenology, Genesis, and Physics*, 2019. B. Galperin and P. L. Read, Eds. Cambridge University Press, 550pp.

2. *Marine Turbulence - Theories, Observations and Models. Results of the CARTUM Project, 2003.* Guest Editor for Section 7: *Large-Scale Processes*. Cambridge - New York: Cambridge University Press.
3. *Large Eddy Simulation of Complex Engineering and Geophysical Flows*, 1993, B. Galperin, and S. A. Orszag., Eds., pp. i-620. Cambridge - New York: Cambridge University Press.

12. JOURNAL PUBLICATIONS

1. Galperin, B., and Sukoriansky, S., 2021: Seasonal oceanic variability on submesoscales: A turbulence perspective. *Ocean Dynamics*, DOI: 10.1007/s10236-021-01444-1.
2. Cabanes, S., S. Espa, B. Galperin, R. M. B. Young, and P. L. Read, 2020: Revealing the intensity of turbulent energy transfer in planetary atmospheres. *Geophysical Research Letters*, **47**, e2020GL088685.
3. Espa, S. S. Cabanes, G. P. King, G. Di Nitto, and B. Galperin, 2020: Eddy-wave duality in a rotating flow. *Physics of Fluids*, **32**, 076604, DOI: [10.1063/5.0006206](https://doi.org/10.1063/5.0006206).
4. Galperin, B., and Sukoriansky, S., 2020: QNSE theory of the anisotropic energy spectra of atmospheric and oceanic turbulence. *Physical Review Fluids*, **5**, 063803, DOI: [10.1103/PhysRevFluids.5.063803](https://doi.org/10.1103/PhysRevFluids.5.063803).
5. Galperin, B., J. Hoemann, S. Espa, G. DiNitto, and G. Lacorata, 2016: Anisotropic macroturbulence and diffusion associated with a westward zonal jet: From laboratory to planetary atmospheres and oceans. *Physical Review E*, **94**, 063102. doi: [10.1103/PhysRevE.94.063102](https://doi.org/10.1103/PhysRevE.94.063102).
6. Sukoriansky, S., and B. Galperin, 2016: QNSE theory of turbulence anisotropization and onset of the inverse energy cascade by solid body rotation. *Journal of Fluid Mechanics*, **805**, 384-421, doi:10.1017/jfm.2016.568.
7. Tastula, E.-M., M.A. LeMone, J. Dudhia and B. Galperin, 2016: The impact of the QNSE-EDMF scheme and its modifications on boundary layer parameterization in WRF: modeling of CASES-97. *Quarterly Journal of the Royal Meteorological Society*, **142**, 1182–1195. doi:10.1002/qj.2723
8. Tastula, E.-M., B. Galperin, J. Dudhia, M.A. LeMone, S. Sukoriansky and Timo Vihma, 2015: Methodical assessment of the differences between the QNSE and MYJ PBL schemes for stable conditions. *Quarterly Journal of the Royal Meteorological Society*, **141**, 2077–2089, DOI:10.1002/qj.2503.
9. Tastula, E.-M., B. Galperin, S. Sukoriansky, A. Luhar, and P. Anderson, 2015: The importance of surface layer parameterization in modeling of stable atmospheric boundary layers. *Atmospheric Science Letters*, **16**, 83-88, doi:10.1002/asl2.525.
10. Sun, J., C.J. Nappo, L. Mahrt, D. Belušić, B. Grisogono, D.R. Stauffer, M. Pulido, C. Staquet, Q. Jiang, A. Pouquet, C. Yagüe, B. Galperin, R.B. Smith, J.J. Finnigan, S.D. Mayor, G. Svensson, A.A. Grachev, and W.D. Neff, 2015: Review of wave-turbulence interactions in the stable atmospheric boundary layer. *Rev. Geophys.*, **53**, 956–993, doi:10.1002/2015RG000487
11. Galperin, B., J. Hoemann, S. Espa, and G. Di Nitto, 2014: Anisotropic turbulence and Rossby waves in an easterly jet: An experimental study. *Geophysical Research Letters*, **41**, 6237–6243. doi:10.1002/2014GL060767.
12. Galperin, B., S. Sukoriansky, N. Dikovskaya, R.M.B. Young, P.L. Read, A.J. Lancaster, and D. Armstrong, 2014: Cassini observations reveal a regime of zonostrophic macroturbulence on Jupiter. *Icarus*, **229**, 295-320. doi:10.1016/j.icarus.2013.08.030.

15. PRESENTATIONS

1. Galperin, B. An analytical theory of oceanic and atmospheric spectra. Eddies and Internal waves: Flow Decomposition and Parameterizations. University of Hamburg, Germany, March 17, 2021.
2. Galperin, B. Turbulence, diffusion and mixing barriers in flows with zonal jets. Kavli Institute for Theoretical Physics, Santa Barbara, CA, March 9, 2021.
3. Galperin, B. Energy spectra in atmospheric and oceanic turbulence. Universality: Turbulence across Vast Scales, Flatiron Institute, New York, December 5, 2019.
4. Galperin, B. A new theory of oceanic and atmospheric energy spectra. Atmospheric, Oceanic & Planetary Physics, Oxford University, Oxford, UK, 2 October 2019.
5. Galperin, B. Zonal Jets – the Book and its Making. Faculty Seminar Series, CMS-USF, St. Petersburg, Florida, August 30, 2019.
6. Galperin, B. What determines the amplitudes and slopes of the energy spectra in geophysical flows? The 11th International Workshop on Modeling the Ocean - IWMO2019 Wuxi, China, 17 – 20 June, 2019.
7. Galperin, B. What determines the amplitudes and slopes of the energy spectra in flows with extra-strains? International Conference on Geophysical and Astrophysical Vortex Interactions, St Andrews, Scotland, UK, 11-14 June 2019.
8. Galperin, B. A New Theory of Oceanic and Atmospheric Kinetic Energy Spectra. Jet Propulsion Laboratory, Pasadena, CA, December 3, 2018.
9. Galperin, B. A New Theory of Oceanic and Atmospheric Energy Spectra. CMS – USF, October 23, 2018.
10. Galperin, B. Turbulence in Rotating Fluids, the Nastrom & Gage Spectra, and Turbulent Mixing in Geophysical Flows. Naval Research Laboratory, Stennis Space Center, MS, May 17, 2018.
11. Galperin, B. How QNSE Theory and Scatterometry Can Improve Various Data Products. International Ocean Vector Wind Science Team Meeting, Institute of Marine Sciences, Barcelona, April 24-26, 2018.
12. Galperin, B. Analytical Theory of Rotating Turbulent Flows and its Applications for Turbulence Diagnostics in Various Environments. Department of Mathematics, USF, Tampa, April 13, 2018.
13. Galperin, B. QNSE Theory of Turbulence in Rotating Fluids and the Nastrom & Gage Spectrum. International Workshop “Scales and Scaling Cascades in Geophysical Systems,” April 4-6, 2018,

- Haus des Sports, Hamburg, Germany.
14. Galperin, B. and S. Sukoriansky. QNSE Theory of Turbulence in Rotating Fluids and the Nastrom & Gage Spectrum. AGU Fall Meeting NG13A: Geophysical Fluid Dynamics II. Monday, 11 December 2017.
 15. Galperin, B. Turbulence in Rotating Fluids and the Nastrom & Gage Spectra. International Workshop on Complex Turbulent Flows. Tangier, Morocco, 27-28 November, 2017.
 16. Galperin, B. and S. Sukoriansky. Turbulence in Rotating Fluids and the Nastrom & Gage Spectrum. Turbulent Mixing and Beyond. Sixth International Conference, Tenth Anniversary Program the Abdus Salam International Centre for Theoretical Physics. Strada Costiera 11, Trieste, Italy, 14-18 August, 2017.
 17. Galperin, B. Turbulence in Rotating Fluids and the Nastrom & Gage Spectrum. DICEA, Sapienza Universit' a di Roma, Rome, Italy, 19 June 2017.
 18. Galperin, B. and S. Sukoriansky. Turbulence in Rotating Fluids and the Nastrom & Gage Spectrum. Weizmann Institute of Science Rehovot, Israel, 18 May 2017.
 19. Espa, S., B. Galperin, and G. Lacorata. Modeling planetary atmospheres and oceans in laboratory: Anisotropy in a westward zonal jet. 16th European Turbulence Conference, Stockholm, Sweden, 21-24 August, 2017.
 20. Galperin, B. Turbulence anisotropisation and Nastrom & Gage spectra in rotating flows. Keynote address at the International Workshop on Turbulence in Stably Stratified Planetary Boundary Layers. Technical University of Delft, Netherlands, 28 March 2017.
 21. Galperin, B. Turbulence anisotropisation and Nastrom & Gage spectra in rotating flows. The Dynamics of Rotating Fluids, UCL Department of Mathematics, London, England, 6 January 2017.
 22. Galperin, B. Turbulence in various environments - from planets to laboratory. Faculty colloquium, Department of Mathematics, USF, 14 October, 2016.
 23. Galperin, B. Why Laws of Physics for Fluid Flow Are Important in Marine Science. CMS – USF Faculty Seminar, 26 August, 2016.
 24. Galperin, B. Westward jets and eddies: Nature and laboratory. IMA Conference on Turbulence, Waves and Mixing. In Honour of Lord Julian Hunt's 75th Birthday, Wednesday 6 – Friday 8 July 2016, King's College Cambridge, UK Cambridge University,
 25. Galperin, B. Physical nature of the Nastrom & Gage atmospheric spectrum, its universality, and applicability as a benchmark in simulations of atmospheric circulation. The 4th International Workshop on Next-Generation NWP models. 25-27 May 2016, Jeju Island, South Korea.
 26. Galperin, B. Recent developments with implementation of the QNSE-EDMF scheme in WRF. The 4th International Workshop on Next-Generation NWP models. 25-27 May 2016, Jeju Island, South Korea.
 27. Galperin, B. Planetary turbulence and zonal jets: from oceans and giant planets to laboratory experiments and back. Environmental Fluid Dynamics Laboratory, Civil & Environmental Engineering & Earth Sciences, University of Notre Dame, IN, 13 October 2015.
 28. Galperin, B. Westward jets and planetary turbulence: from laboratory studies to oceans and to giant planets. Department of Physics and Physical Oceanography, Memorial University of Newfoundland, St John's, Canada, 2 October 2015.
 29. Galperin, B. Westward jets and eddies in nature and in a laboratory. Leverhulme Workshop, Atmospheric, Oceanic and Planetary Physics, Oxford University, Oxford, UK, 2 September 2015.
 30. Galperin, B. Westward jets and eddies in nature and laboratory flows. Fundamental Aspects of Geophysical Turbulence II. National Center for Atmospheric Research, Boulder, CO, 6 August 2015.
 31. Galperin, B. Westward jets and eddies in nature and laboratory flows. National Oceanography Centre, University of Southampton, Southampton, UK, 15 June 2015.
 32. Galperin, B. Westward jets and eddies in nature and in a laboratory. School of Computing and Mathematics, Keele University, Keele, UK, 3 June 2015.
 33. Galperin, B. Anisotropic turbulence and zonal jets on giant planets, in the ocean and in a laboratory. Planetary Sciences Group, Department of Physics, University of Central Florida, Orlando, Florida, 3 April 2015.
 34. B. Galperin. A laboratory study of anisotropic turbulence and Lagrangian diffusion on a westward jet - and a novel method of analyzing macroturbulence. Naval Research Laboratory, Stennis Space Center, MS, 5 March 2015.
 35. Galperin, B. An experimental study of anisotropic turbulence and Lagrangian diffusion in an easterly jet - and a novel method of analyzing macroturbulence. Rosenstiel School of Marine and Atmospheric Science, University of Miami, 11 November 2014.
 36. Galperin, B., J. Hoemann, S. Espa, and G. Di Nitto. A laboratory study of anisotropic turbulence

- and Lagrangian diffusion in an easterly jet - and a novel method of analyzing macroturbulence. *The Dynamics of Rotating Fluids. Atmospheric, Oceanic and Planetary Physics*, University of Oxford, UK, 26 September 2014.

CONFERENCES, SESSIONS, LECTURES

2011 – 2018	Organizing and running a section on the Geophysical Fluid Dynamics at the conference “Turbulent Mixing and Beyond” held at the Abdus Salam International Theoretical Physics Institute in Trieste, Italy
2011 - 2013	Organizing and running the program “Zonal jets and eddies – planetary science and satellite oceanography at the crossroads” at the International Space Science Institute in Bern, Switzerland. This program will result in a book “Zonal Jets” published by the Cambridge University Press and co-edited by Professor Peter Read of the University of Oxford and myself
2010	Co-chairing a session on zonal jets at the AGU Ocean Sciences meeting in Portland, Oregon
2008	Giving a tutorial on the Quasi-Normal Scale Elimination Theory of Turbulence at the Penn State University
2008	Organizing a workshop on experimental investigation of zonal jets at CMS – USF, St. Petersburg, Florida
2006	Organizing and chairing a session on zonal jets at the AGU Ocean Sciences meeting in Honolulu, Hawaii
2000 – 2007	Chairing Atmospheric Turbulence sessions at the Annual Assemblies of the European Geophysical Society in Nice and Vienna
2001 – 2005	Editorial work for the CARTUM book, “Marine Turbulence”, published by the Cambridge University Press
1999 – 2001	Member of the Scientific and Steering Committees of CARTUM – the EU-sponsored concerted action for Comparative Analysis and Rationalization of Second-Moment Turbulence Models
1990	Organizing, running and chairing the conference “Large Eddy Simulation – Where Do We Stand?” at St. Petersburg Beach, Florida. The conference resulted in a book co-edited by Professor Steven Orszag of Princeton University and myself, published by the Cambridge University Press
1989 - present	Inviting and hosting speakers for CMS seminars and the Eminent Scholar Lecture Series
