

USF Research Integrity & Compliance Feedback Survey

In an effort to improve transparency and the quality of service to the USF and affiliate research community, we have developed a simple feedback survey. Feel free to complete one after each interaction to share what you appreciate about the service and what you would like to see changed.

Once this project has been underway for a few months, we will develop a FAQ document to replace this document. It will share common feedback and our ongoing efforts to improve processes. It will also provide feedback and facts for common misconceptions. These will be posted as a PDF here:
