Or fill out a request form at: <http://www.qsrinternational.com/customer-support>

What is NVivo?

NVivo 11 Pro allows you to take advantage of powerful data management, query, analysis, and visualization tools. Organize and analyze data, brainstorm ideas, map connections, visualize concepts, and share findings. Whether you're working on your own or in a small team, if you need to analyze text, audio, video, surveys, social or online data, NVivo 11 Pro can help you answer the complex questions.

How to Access NVivo Version 11 via the USF Applications Gateway:

1. Go to: <http://apps.usf.edu>
2. Click on the green Sign-in box
3. Enter in your NetID and password
4. If you haven't accessed this portal before, it will require you to download the Citrix plugin. Click Continue to install it.
5. Scroll to NVivo and click on it to access the application!
